

Another Successful QAD Mid-West User Group Conference...!

Sparta, NJ – October 18, 2011 The MWUG Board of Directors, headed by Ms. Anne Holmes, once again did a terrific job in organizing the Fall 2011 QAD MFG/PRO Enterprise Applications (EA) user event (MWUG), held September 25th-27th in Fort Wayne, Indiana . The agenda was filled with many helpful topics provided by both QAD and the Vendor community. The keynote presentation provided by Mr. Tony Winter (CIO QAD) on 'The Effective Enterprise' was interesting and educational. Thank you MWUG Board!

During this event, ISS Group introduced our most recent "iSolution", **iApprove**. iApprove is a Workflow and Approval Routing engine tightly integrated with QAD EA. It has received tremendous praise/interest within the QAD community from our Web presentations this past summer. We are very excited to add this solution to our portfolio of products currently used within the QAD community, which already include iPurchase, iQuote, and iBridge. Please be on the lookout for an invitation to our next iApprove Web presentation; currently being scheduled this coming November...!

This has been ISS Group's 15th year as a Sponsor and Exhibitor at the QAD Fall MWUG conference, and we always look forward to seeing many familiar faces at these events. Not only is it an opportunity to catch-up with the latest QAD announcements, but it is also a terrific venue for all of us Vendors to show our latest wares.

Thanks to all who visited with us at our booth. We hope you were one of the lucky ones who received one of our cool orange stress balls before they ran out, and congratulations to the winners of the two \$50 Facebook gift cards we awarded...!

Aside from getting stuck at the Detroit airport on Tuesday night due to bad weather in Philadelphia, the trip to Ft. Wayne to attend the Fall 2011 QAD MWUG conference was very productive and worthwhile.

And last but not least, a big thanks to Marriott in Ft. Wayne for the wonderful accommodations. We look forward to seeing you all again in the spring.

Andrew Weinstein
CEO
ISS Group
