ISS Group's iBridge™ v4.0 Achieves Re-Certification for Microsoft® Dynamics Accreditation

Sparta, NJ – November 24, 2008 – ISS Group announced today that its iBridge v4.0 solution, a real-time integration solution offering bi-directional functionality between Enterprise Resource Planning (ERP) systems, such as QAD®'s Enterprise Applications (MFG/PRO®), and Microsoft Dynamics Customer Relationship Management (MSCRM), has again passed the Software Solution Test for Microsoft Dynamics, which is a major requirement for Certified for Microsoft Dynamics status. iBridge was originally added to the Microsoft list of certified third-party applications for MSCRM in March 2005.

Certified for Microsoft Dynamics is Microsoft Corporation's highest standard for partner-developed software. This certification represents a significant step in elevating the standard for partner-developed software solutions for industry-specific business applications. Solutions with a successful software test have demonstrated development quality and compatibility with the Microsoft Dynamics product. VeriTest, a service of Lionbridge, performed independent and rigorous testing on the solution's integration with Microsoft Dynamics. ISS Group has retained the Microsoft Gold Certified Partner designation with this Independent Software Vendor (ISV) Competency.

"By requiring the software solution to meet our highest standards, Microsoft is assuring customers that these certified solutions work with their investments in Microsoft Dynamics," said Doug Kennedy, vice president, Microsoft Dynamics Partners. ***"Microsoft congratulates ISS Group on the software test results and wishes its continued success on their Gold Certification for Microsoft Dynamics designation."***

iBridge is the only real-time integration solution offering bi-directional functionality between MSCRM and ERP solutions, such as MFG/PRO and Apprise. It allows for secure, up-to-date information to Sales, Operations & Customer Service Department and eliminates the need to re-key redundant information in both the ERP and MSCRM systems.

About Microsoft Dynamics

Microsoft Dynamics is a line of financial, customer relationship and supply chain management solutions that help businesses work more effectively. Delivered through a network of channel partners providing specialized services, these integrated, adaptable business management solutions work like and with familiar Microsoft software to streamline processes across an entire business.
